

Three Otters Eco Retreat, LLC: Riverside Adventures & Education

Directions from Cumberland and Pointz West

Phone: 304-947-5446, you are welcome to call when you are 45 minutes out and we will know to look for you.

**Do NOT rely on GPS once outside of Berkeley Springs or Paw Paw or YOU WILL GET LOST!!
Also, gas up. There are no gas stations in Great Cacapon!!**

- From 68 East in Cumberland, Take Exit 43B (MD51/Industrial Blvd)
- Turn Right onto MD51 South
- Follow MD 51 South about 25 miles to Paw Paw, WV
- When you cross the Potomac River you enter Paw Paw and MD 51 becomes Rt 9/29
- From Paw Paw (gas station), go about 1.5 miles and take a sharp left onto Magnolia Rd
- Follow Magnolia Rd for 4.5 miles. You will come to a stop sign.
- Go straight at stop sign and continue on Magnolia for 2.2 miles. It's a long downhill and just as it levels out at the bottom the road bends to the right. Continue until you **GO UNDER THE TRAIN BRIDGE.**
- At this point the pavement ends and the road forks into 2 dirt roads, **TAKE THE LEFT FORK** (do not go back under the railroad bridge!).
- You are now on Low Line Road (or "River Road"). **NOW STOP & SET YOUR ODOMETER! You are 3.6 miles from Three Otters;**
- This is a rough, bouncy ride for the first half mile so go slow.
- **NOTE:** You will know you are going the right way when you pass under an old abandoned railroad bridge in about 0.4 miles and the river will be on your left;
- Three Otters will be on your left. Look for the sign and the driveway that has a large gate painted silver and a guard rail going down the left hand side. The driveway is the last possible left turn before you come to another retired train bridge. If you come to this bridge, you have gone too far. Just turn around and take your first RIGHT.

*Low Line Road (River Road) is a hard packed gravel road which is an old railroad bed. It has big dips and large gravel which makes it a bumpy road. While there is no risk of getting stuck, after a heavy rain some of the dips can fill with water, so skirt to one side or another. Do not go through the middle. While it is nice to have a vehicle with high clearance, we routinely drive our min-van to Three Otters. Just go slow!

8497 Low Line Road, Great Cacapon, WV 25422 (do not use GPS!)
